The average human heart beating at 72 BPM, will beat approximately 2.5 billion times during a lifetime of 66 years. It is known as a fact that the human heart adapts its speed to the rhythm of music. The harder styles will make your heart beat as fast as it can! Feel the adrenaline rush and make your heartbeat run wild on Heart Beatz!

With a special concept called trinity, created by Quality Projects BV we are going to make sure that you'll love this event! Trinity stands for the father, the son and the holy spirit.
In three special decorated area's, you can enjoy three different styles of music presented by three of the best DJ's in the scene.

From France we present Lobotomy Inc. which performed this year at the X-Exclusive Zany edition and Qlimax Belgium.
We also proudly present Fausto. He is one of the best hardstyle DJ's of the moment and has played at the sold out Qlimax 2007 and Dance Valley festival.
Partyraiser will close the mainstage at Heart Beatz with a pumping and massive dj set.

Don't miss the hardest event of the year in discotheque the Mondial!!!
We will speed up your Heart Beatz.
